

ONLINE CAMPUS GUIDE

WWW.WEAREGENERATIONS.CHURCH/LIVE

1. On any computer, phone or streaming device - head to wearegenerations.church/live on Sundays at 9 or 10:45AM, or anytime throughout the week. Your page will look like this:

- If you are watching live, there are features that will help you connect to the church and others watching on the right side of the screen.
 - You can view message notes to help you engage with our teaching.
 - You can ask for prayer and our online hosts will pray for you. There's an option to pray privately live with an online host.
 - You can give your tithes & offerings by clicking the top right corner that says "give."
- As you watch on-demand throughout the week (meaning, not live on Sunday at 9 or 10:45am) - there will not be an online host, but the service video, message notes, and giving are still available.

Troubleshooting:

- The audio isn't working?**
 - This is most often due to your device being muted. Be sure you turn your volume up and make sure it is not muted. If you roll your mouse over the video, there's also a volume control in the lower corner of the video.
 - The picture cuts in and out?**
 - Depending on your internet network and WiFi service - your video may cut out occasionally if you don't have a strong connection. Just close your web browser and re-open the Online Campus.
 - Need help setting up a device on your tv?**
 - Most computers can plug straight into your TV with an HDMI cable that can be bought at Walmart, Best Buy, or any tech store.
 - Other devices (Roku, Amazon FireStick, etc) will be different for each device.
- Let us know if you need any help!**
